Lafayette 911 Leads the Way in School Safety with LiDAR Mapping Initiative

LiDAR Magazine recognizes Lafayette 911's innovative initiative to digitally map every school in Lafayette Parish, highlighting the agency's leadership in using advanced LiDAR technology to enhance emergency response and school safety. Through a collaborative effort with the Lafayette Parish School System, Fenstermaker, Navigation Electronics, and GeoCue, Lafayette 911 successfully integrated detailed, room-by-room indoor maps into its CAD system, giving first responders real-time, actionable information during critical incidents. This forward-thinking project not only improves response speed and situational awareness but also serves as a model for school safety preparedness across Louisiana and beyond.
